

For Coaches, Managers, Team Recorders and/or Team Reporters

You would have an existing Dribl member profile as a result of being registered in Dribl as a Coach or Manager or Player in a competition during any season, but your account has not yet been activated.

To activate a Dribl account, complete the following steps carefully:

1. Download the Dribl app from the **App Store** (iPhone) or **Google Play Store** (Android). *If you already have the Dribl app installed on your phone, it is advised to delete it and then download and install the latest version*
2. Once the app has been installed, proceed to open it.
3. Tap **Sign Up** to begin.
4. Enter an **email address** and then tap **Next** - *The email address is your own unique login account to access Dribl and can only be used with a single Dribl account. Be sure to use the same email address that was used when you first registered via the [Dribl Store](#).*
5. Enter a **password** and then tap **Next**. The password needs to be at least six (6) characters.
6. Enter the 4-digit **verification code** that was sent to your email address to validate your account. If you don't receive the verification email within a few minutes, check your spam mailbox in case it has been caught there.
7. Your Dribl account is activated once you have verified your email address. Tap **Next**.
8. Select your profile and then tap **Next**.

IMPORTANT: You may be presented with multiple profiles which could include those of family members. This will occur if each of them is registered via the [Dribl Store](#) using your email address. It is important to only select your profile and not that of another member. If your profile is not listed, tap **None of these profiles are mine** and continue to [create a new profile](#) for yourself.

9. Enter your **First Name** and **Last Name** to verify that it matches the selected profile. Tap **Next**.
10. Enter your **Date of Birth** to verify that it matches the selected profile. Tap **Next**.
11. Upon successful validation, your Dribl account and profile is successfully created. Tap **Finish** to complete the process.

Once your account has been activated, depending on the role assigned to you, you will be able to...

- Manage match sheets as part of game day administration.
 - Submit your team members prior to any game.
 - Confirm the opposition prior to any game.
 - Enter your game's score at the conclusion of each game.
- View match schedules, results, and league ladders.
- Follow your favourite teams and leagues for competitions that are managed in Dribl
